

2012 XTERRA

INNOVATION FOR THE EXTREME.

The fun begins where the pavement ends. And with a potent 261 horsepower and serious off-road capabilities, the unpaved world is yours for the taking. Gear up with a roof rack so radically versatile, it's often imitated, but never equalled. Got mud? You've got a ventilated gearbox on the roof and an Easy Clean™ cargo area that just wipes down. So where are we heading? Xterra®. Innovation for the extreme. Innovation for all.

Nissan Xterra **PRO-4X** shown in Airstream.

261 HP **281** LB-FT
OF TORQUE

MUSCLE UP. BITE DOWN.

No matter how you slice it, Xterra® is built to deliver. A potent 4.0-litre DOHC 24-valve V6 gives you the power to climb faster and farther, while advanced friction-reducing technologies keep it all moving smoothly. Continuously Variable Valve Timing delivers heightened efficiency and power, which is important when you're towing up to 2268 kg (5000 lbs)¹. Mix it all with some serious off-road features and you've got one tough machine. Go make your mark.

Just try to block its way. Whatever the obstacle, Xterra equipped with 4-Wheel Drive is up for the challenge. Not only is it packed with advanced technologies ready to conquer the trail, it's also equipped with hard-core 4x4 components. From a fully boxed ladder frame to a locking rear differential², this vehicle sets its own bar. Its only limit may be how far you're willing to go.

Nissan Xterra PRO-4X shown in Knight Armour. Roof basket not available in Canada.

Locking Rear Differential²

When 4-Wheel Drive just isn't enough, activate the available electronic locking rear differential. This technology delivers equal power to both rear wheels to boost traction and help keep your Xterra moving forward. Helping you reach your destination even in the gnarliest trail conditions.

Hill Start Assist³

Works on the uphill swing to help prevent rolling backward when you're starting from a stop on an incline. This system applies the brakes for a few moments, allowing you enough time to switch from the brake pedal to the accelerator.

Hill Descent Control³

What goes up must come down. Xterra's hill descent control automatically adjusts your speed and brake pressure to help keep you going at a controlled speed, freeing you up to concentrate on navigating difficult off-road situations.

Shift-on-the-Fly

Go where the wind – or whim – takes you, with a twist of a dial. The highly capable Xterra 4WD system features shift-on-the-fly 4-Wheel Drive with a 2-speed transfer case, so you can go from 2WD to 4H at speeds up to 100 km/h (62 mph).

¹Trailer brakes recommended for towing over 454 kg (1000 lbs). Weight distribution hitch should be used for towing over 907 kg (2000 lbs). See your Owner's Manual for complete details. ²PRO-4X models only. ³PRO-4X models with automatic transmission only. Cargo and load capacity limited by weight and distribution. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

FOLD IT. LOAD IT. GO!

Bring what you will, Xterra adapts. Fold the seats to make it fit and latch it down with multiple hooks, or use the innovative Utili-track™ Channel System to easily secure your gear. Clean up quickly with the Easy Clean™ cargo area. Load up the iconic roof rack with all your toys. This is the definition of versatility.

It's a tubular sensation. With so many choices, the revolutionary roof rack begs you to take every last item. From its heavy-duty integrated gear box to the powerful roof-rack-mounted off-road lights to its long list of available accessories, the only option it doesn't offer is the one about turning back.

Bring what you need. Whatever it is, Xterra is ready to make it fit. A 60/40 split rear seat and fold-flat front seat give you plenty of options, while an available first-aid kit is nestled in its own nook in the back hatch, just in case. Be ready to accommodate anything, and never ditch a friend for gear again.

Secure your gear with ease. The Utili-track™ Channel System slides and locks into any position to give you unlimited potential. Combine that with a long list of accessories custom-made to fit, like the sliding rear cargo area organizer shown to the left, and you've got the means to accommodate any activity. Load it, lock it, start your adventure. Oversize hooks in the ceiling make securing your gear a cinch. Strap it down and get out there!

Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the SUV with cargo, especially on the roof, will affect the handling and stability of the vehicle.

ADRENALINE TECH.

Pump up your experience and keep up connections. With available features like powerful audio from Rockford Fosgate or a Bluetooth® Hands-Free Phone System¹, Xterra has the technology to keep you rocking and talking no matter where the trail takes you. Now the only question is: Why would you want to come back?

Your tunes sound better through an available 9-speaker Rockford Fosgate-powered audio system, including XM® Satellite Radio.²

Your music is fingertip-close with the available Genuine Nissan Accessory iPod® Interface System³ that lets you control your iPod® through the audio system's controls.⁴

An available Bluetooth® Hands-Free Phone System lets you make and take calls with your hands on the wheel and listen to calls through the audio system's speakers.¹

Nissan Xterra PRO-4X shown in Graphite/Steel Cloth. U.S. instrumentation shown.

¹Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under licence. ²XM® Satellite Radio is available in the 10 Canadian provinces and the 48 contiguous United States. Basic monthly subscription required and sold separately after trial period. Subscription subject to terms and conditions at xmradio.ca. All fees and programming subject to change. © 2011 XM Satellite Radio Inc. The XM name and related logos are registered trademarks of XM Satellite Radio Inc. All other trademarks are the property of their respective owners. ³PRO-4X and SV only. ⁴Always give your full attention to driving. Avoid operating your iPod in such a way that you can be distracted during vehicle operation. See dealer for details. [®]iPod is a registered trademark of Apple, Inc. All rights reserved. iPod not included.

REDUCE YOUR RISK.

Take your chances out there, not in here. Starting with 6 standard airbags, Xterra comes jam-packed with advanced safety features that are ready to help you avoid an accident and keep the adventure going. It includes rigorous crash testing, over 50 standard safety features, and a long list of cutting-edge technologies. All poised to respond in case of an unavoidable event. Standard on every Xterra are:

Vehicle Dynamic Control (VDC) helps you stay on your steered path. If your vehicle begins to oversteer (fishtail) or understeer (plow forward), VDC (sometimes known as Stability Control) compensates by reducing engine power and/or applying appropriate brake pressure to specific wheels.¹

Anti-lock Braking System (ABS) rapidly pumps the brakes during hard braking to help prevent your wheels from locking, helping you maintain steering control.

Brake Override Technology. Like every Nissan since 2005, Xterra comes standard with Brake Override Technology. It's designed to help slow down your vehicle and bring it to a safe stop in an emergency by overriding accelerator input and reducing engine power when the accelerator and brake pedals are applied simultaneously.

Ready with a rollover sensor. In the unlikely event of a rollover, Xterra is poised to respond. All models have a sensor that detects an impending rollover and deploys both curtain airbags.²

6
standard airbags

Airbag Technology² Nissan's Advanced Airbag System (AABS) includes standard dual-stage supplemental front airbags that incorporate seat belt sensors and an occupant-classification sensor. The inflation rate of these dual-stage airbags adjusts depending on crash severity and seat belt usage. If the front passenger seat is empty, a sensor will deactivate the bag. In addition, front seat-mounted side-impact supplemental airbags are built into the seats, so they move with you as you adjust your seating position.² Up above are standard roof-mounted curtain supplemental airbags, offering enhanced head protection for both rows of outboard occupants.²

Zone Body construction helps absorb crash energy to protect the occupant compartment if the unavoidable happens. It includes front and rear crumple zones, energy-absorbing frame side-members and crossmembers, a reinforced body structure and bumper heights designed for compatibility with other vehicles. All to help lessen the effects of an impact and protect your family.

Another Nissan First. Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at nissan.ca/owners/en

¹VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. ²Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents. See your Owner's Manual for more details. Inflated airbags shown for illustration purposes only. Actual airbags deflate after deployment.

INNOVATION FOR THE EXTREME. INNOVATION FOR ALL. NISSAN XTERRA®

At Nissan, innovation is at the core of everything we do. It's about turning our ideas and dreams into something that makes a difference in your life, every time you get behind the wheel. So imagine driving an Xterra, with all of this capability:

Rack it. Not just a roof rack, an icon. With a ventilated gearbox, you can dry out wet gear on the roll, while available integrated off-road lights show you the way home.

Lock it. Put your gear in lockdown with Xterra's innovative Utili-track™ Channel System. With floor rails, heavy-duty sliding cleats, and 10 cargo hooks, nothing's getting loose.

Grade it. Whether it's steep or deep, with the PRO-4X model you've got serious off-road equipment, including hill descent control and hill start assist.¹

Tame it. Underneath Xterra's rugged good looks is a solid core featuring a fully boxed, full-length ladder frame. That's full-size strength on a mid-size SUV.
